

Application method

Routine cleaning (surface cleaning)

Blue cloth

General surfaces, tables, doors, window sills, etc.

Yellow cloth

Mirrors, wash basins, shelves, partition walls, etc.

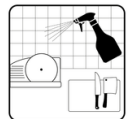

Red cloth

Toilets, urinals, splash zones

Green cloth

Kitchen areas, disinfection

Folding method

Folding the cloth twice creates 8 working areas. This allows you to clean eight times without having to rinse the cloth!

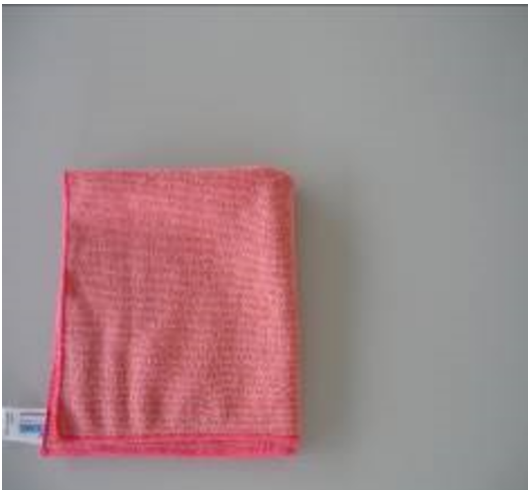

The safety advice and instructions for use on the containers, the product information and the safety data sheet must be observed. Please also observe the cleaning and maintenance recommendations of the manufacturers as well as the instruction manual of the machines and equipment used.

Application method

Routine cleaning (surface cleaning)

Step 1: Dose and prepare ready-to-use solution

First add water, then add the correct amount of detergent, following the dosage instructions on the label. Always use cold water!

The safety advice and instructions for use on the containers, the product information and the safety data sheet must be observed. Please also observe the cleaning and maintenance recommendations of the manufacturers as well as the instruction manual of the machines and equipment used.

Application method

Routine cleaning (surface cleaning)

Step 2: Rinse and fold the cloth

Rinse the cloth in cleaning solution and wring out. Fold cloth as described. The folding method creates 8 working areas to use before the cloth needs to be rinsed out again.

Step 3: Clean the surfaces systematically

Clean the surfaces systematically using the folded cloth. Turn the dirty side of the cloth over to use a clean side. Rinse the cloth in a bucket if necessary. Replace the cleaning solution if necessary.

Step 4: Clean tools

Empty and rinse out the bucket after finishing work. Cloths should be washed with laundry.
